PROFILE

Software engineer with around 1.5 years of hands-on development experience, currently building production features at Windsor Gaming Company. Works mainly in React, Tailwind CSS and Node.js, with experience developing full-stack web applications, REST APIs and database-driven systems. NVQ Level 5 ICT diploma holder with an earlier background in hardware and networking, comfortable working across the stack from the database to the browser.

TECHNICAL SKILLS

Frontend: React · JavaScript (ES6+) · Tailwind CSS · HTML5 · CSS3

Backend: Node.js · Express · REST APIs

Databases: MySQL · PostgreSQL · MongoDB

Also worked with: Java · Git & GitHub · Unity (C#) · Godot · cPanel

Design Tools: Photoshop · Illustrator · Premiere Pro · Figma

EXPERIENCE

Associate Software Engineer

Windsor Gaming Company (Pvt) Ltd.

- Build and maintain features across the stack using React, Tailwind CSS and Node.js.
- Develop responsive and user-focused web interfaces and backend functionality.
- Work with the team on code reviews, Git workflows and release fixes.

Trainee Software Developer

Microdyne

- Developed responsive web interfaces in React with Tailwind CSS from designs and requirements.
- Built and consumed REST APIs using Node.js and Express, backed by MySQL.
- Worked on application features and modules based on project requirements.
- Debugged and fixed reported issues and prepared basic technical documentation.

Trainee Hardware Technician

National Institute of Education (NIE), Maharagama

- Performed server installation and configuration, hardware maintenance and troubleshooting.
- Assisted with network design, implementation and technical support.
- Provided technical support across Windows 7/8/10/11 environments.
